BGFIEND

In the EE-I daily report dated 23 August 1951, under the title BGFIEND, it was reported that the OSO supply drop flown by the OPC covert plane 22/23 August was reported to have been successful. This statement was made on the basis of a short, cryptic message, and we have now received word that, although, the plane returned safely to its base near Athens, no supply drop was made due to the fact that recognition signals were not observed on the DZ or its alternates.
